DETAILED ACTION

This is a response to the amendment filed on 12/19/05.

Claims 1-9 and 11 are pending.

This application is in condition for allowance except for the following formal matters:

Claim Objections

Claim 1 is objected to because “the emulation” on line 1 lacks antecedent basis; “the” should be deleted.

Drawing Objections

a. Figures 1, 3 and 5 are, in general, objected to because the blocks for “Circuit Board(s)”, programmable logic circuits such as “PLD” or “FPGA” should be labeled “Circuit Board(s)”, “PLD” or “FPGA”, accordingly.

b. Figure 7 is objected to because all the blocks of the flowchart figure 7 must be labeled according to their functions.

Correction is required.

(Note that short Explanatory Phrases added to the Figures to explain the existing reference numerals in fig 1, 3, and 5 and to explain the existing alphabetical references (A-G) in fig 7 are acceptable)

Wrong Patent Application Serial Number in Amendments

In the Amendments to the Claims, pages 6-8 show the wrong Application No. 10/355,624 instead of the correct Application No 10/649,230. Correction is required.

Reasons for Allowance

Claims 1-9 and 11 would be allowable because the prior art does not teach or suggest a device for emulation of a design for integrated circuits in the manner as recited in the claims.

Art Unit: 2825

Conclusion

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter
